Information systems (IS) are formal, sociotechnical, organizational systems designed to collect, process, store, and distribute information. In a sociotechnical perspective, information systems are composed by four components: task, people, structure (or roles), and technology.. A computer information system is a system composed of people and computers that processes or interprets information.

1.. Why study management control systems as a package?The idea of management control systems (MCS) operating as a package 1 has existed for over 30 years (Otley, 1980) and there have been regular calls to study the phenomenon (Chenhall, 2003, Dent, 1990, Fisher, 1998, Flamholtz et al., 1985, Otley, 1980).Despite this there has been little explicit theorizing or empirical research on the topic ...
