

business process automation with pdf

Business process automation (BPA), also known as business automation or digital transformation, is the technology-enabled automation of complex business processes. It can streamline a business for simplicity, achieve digital transformation, increase service quality, improve service delivery or contain costs. It consists of integrating applications, restructuring labor resources and using ...

Business process automation - Wikipedia

Automation, whether business process automation or general automation essentially means, "the use of computers or other control systems to control a particular process in order to increase reliability and efficiency, often through a reduction in labor" (source: wikipedia). What does this line ...
