

cadence version 6 1 pdf

A Phrygian half cadence is a half cadence iv 6 ♯ in minor, so named because the semitonal motion in the bass (sixth degree to fifth degree) resembles the half-step heard in the ii♯ of the 15th-century cadence in the Phrygian mode. Due to its being a survival from modal Renaissance harmony this cadence gives an archaic sound, especially when preceded by v (♯iv 6 ♯).
