FIRE DEPARTMENT CITY OF NEW YORK STUDY MATERIAL FOR THE

Construction management (CM) is a professional service that uses specialized, project management techniques to oversee the planning, design, and construction of a project, from its beginning to its end. The purpose of CM is to control a project's time, cost and quality—sometimes referred to as a project's "triple constraint."

Construction management - Wikipedia

Dodge PlanRoom provides a single, secure location for contractors and sub-contractors to share and manage plans, specifications, and other construction documentation and information from the bid phase through to project completion.

Reports | Construction Industry Research and Studies

The literature suggests that these credits translate into improved IEQ. Our previous review of green buildings and health identified 17 studies and found that, overall, occupants report better IEQ and fewer health problems in these buildings compared to non-certified buildings.
