Malingering is a medical diagnosis, but not a psychiatric disorder. The label imputes that an evaluatee has intentionally engaged in false behavior or statements. By diagnosing malingering, psychiatrists pass judgment on truthfulness. Evaluatees taking exception to the label may claim that the professional has committed defamation of character (libel or slander) when the diagnosis is wrong and ...

Liability for Diagnosing Malingering | Journal of the

The concept of designations for hospital facilities that care for newborn infants according to the level of complexity of care provided was first proposed in 1976. Subsequent diversity in the definitions and application of levels of care has complicated facility-based evaluation of clinical outcomes, resource allocation and utilization, and service delivery.
