and stages in sequence of designing a training course all the way to evaluation for feedback into further development. It is worth mentioning here that the design and development process of training material is anything but linear. It's very iterative but it's a challenge and a difficulty to capture this in a document such as this guide.

Training Material Development Guide - Msb.se

Stressed are the need for the teaching of "learning-to-learn" strategies before modular courses are commenced and the importance of assessment to integrate knowledge gained from modules. Bruner's spiral curriculum concept, it is argued, is particularly useful in ensuring adequate practice and effective integration in modular course design.

Ensuring effective learning from modular courses: a cognitive

Designing and implementing training programs Summary 52.2 ... The first step in the design of training involves an assessment of training needs. The assessment comprises " ... learning methods and media that will achieve maximum effectiveness. Methods and media may include lecture, discussion, case study, role-playing, group exercise, ...

chapter 52 Designing and implementing training programs
