This week we start a systematic review of a plant's sensory systems by starting with plant responses to light. We will cover an overview of human vision, plant responses to light, Darwin's experiments showing plant responses to light, phototropism, phytochrome and flowering, and modern research on phototropism.

A Reflection of Health. The concept of "biological diversity" is multifaceted and complex. It includes the concept of species diversity, or the total of all species in a given area or habitat, but can also refer to genetic diversity within a species. Biodiversity can even refer to the diversity of habitats in a given region.
