In rock climbing, mountaineering, and other climbing disciplines, climbers give a grade to a climbing route or boulder problem, intended to describe concisely the difficulty and danger of climbing it. Different types of climbing (such as sport climbing, bouldering or ice climbing) each have their own grading systems, and many nationalities developed their own, distinctive grading systems.

I then handed out a second sticky note and asked them to "refine" their passion a bit. Alter it so that it was something they could create an inquiry project on - something they could create a question about and complete research on (we have already completed inquiry projects in science this year, so this concept wasn't new to them).
