Sociotechnical systems (STS) in organizational development is an approach to complex organizational work design that recognizes the interaction between people and technology in workplaces. The term also refers to the interaction between society's complex infrastructures and human behaviour. In this sense, society itself, and most of its substructures, are complex sociotechnical systems.

Sociotechnical system - Wikipedia

The NIOSH Mine Safety and Health Technology Innovations Award recognizes mines and companies that have made an extraordinary effort to apply technology or improve processes in innovative ways, above and beyond mandatory requirements, to improve mine worker safety and health.
