Page 1-5 Managerial Accounting Basics Managerial accounting, also called management accounting, is a field of accounting that provides economic and financial information for managers and other internal users. Managerial accounting applies to all types of

Accounting Principles 8th Edition - MCCC

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
