The Math 5 (3.0) works a little differently than the 2.0. The academic content is the same as always and includes over 100 hours of multimedia instruction! However, each course is now delivered online as a 12-month subscription (per student). This obviously means no more discs (and, importantly, no more need for expensive disc replacements).

problems that use mathematics as a tool, like problems in science and geography. Mathematics can describe and explain but it can also predict what might happen. That is why mathematics is important. Learning and teaching mathematics Learning skills and remembering facts in mathematics are important but they are only the means to an end.
