The time value of money is the greater benefit of receiving money now rather than later. It is founded on time preference.. The time value of money explains why interest is paid or earned: Interest, whether it is on a bank deposit or debt, compensates the depositor or lender for the time value of money.. It also underlies investment. Investors are willing to forgo spending their money now only ...

Time value of money - Wikipedia

Money is any item or verifiable record that is generally accepted as payment for goods and services and repayment of debts, such as taxes, in a particular country or socio-economic context. The main functions of money are distinguished as: a medium of exchange, a unit of account, a store of value and sometimes, a standard of deferred payment. Any item or verifiable record that fulfils these ...
