The Montessori Method of education, developed by Maria Montessori, is a child-centered educational approach based on scientific observations of children. Montessori's method has been used for over 100 years in many parts of the world. The Montessori method views the child as one who is naturally eager for knowledge and capable of initiating learning in a supportive, thoughtfully prepared ...

In 1911 and 1912, Montessori's work was popular and widely publicized in the United States, especially in a series of articles in McClure's Magazine, and the first North American Montessori school was opened in October 1911, in Tarrytown, New York. The inventor Alexander Graham Bell and his wife became proponents of the method and a second school was opened in their Canadian home.
