Monthly crude oil and natural gas production data collected on Form EIA-914 (Monthly Crude Oil, Lease Condensate, and Natural Gas Production Report) ... Information on capacity of existing natural gas pipelines crossing between states, international borders, and offshore Gulf of ...

U.S. Energy Information Administration (EIA) - Natural Gas

Although natural gas production in North America is projected to gradually increase through 2025, consumption has begun to outpace available domestic natural gas supply. Over time, this gap will widen. Emergence of the Global LNG Market One of several proposed supply options would involve increasing imports of liquefied natural gas (LNG) to ensure

Liquefied Natural Gas - Department of Energy

related to natural gas storage: capacity characterization and expansion logic, injection/withdrawal rates, and associated costs. Section 10.9 describes the crude oil and natural gas liquids (NGL) price projections that are exogenous inputs in the natural gas module. They figure in the modeling of natural

10. Natural Gas - US EPA

(B) The effect of the availability of substitute natural gas and shale gas on natural gas prices The past five years have been marked by steady natural gas production, without any major disruptions. While this is in large part due to the fortuitous lack of hurricane activity in the Gulf of Mexico region, the
