Indian council of Agriculture Research (ICAR) is the largest scientific organisation in India with most number of research institutes. ARS NET exam is the only life science exam in India that allows you to become a Scientist in ICAR institutes all over India with just the qualification of M.Sc in the concerned subject. That itself tells the importance of this exam.

Polyploidy is the state of a cell or organism having more than two paired sets of chromosomes. Most species whose cells have nuclei are diploid, meaning they have two sets of chromosomes"one set inherited from each parent. However, polyploidy is found in some organisms and is especially common in plants. In addition, polyploidy occurs in some tissues of animals that are otherwise diploid, such ...

Meiosis I. Meiosis I segregates homologous chromosomes, which are joined as tetrads (2n, 4c), producing two haploid cells (n chromosomes, 23 in humans) which each contain chromatid pairs (1n, 2c). Because the ploidy is reduced from diploid to haploid, meiosis I is referred to as a reductional division. Meiosis II is an equational division analogous to mitosis, in which the sister chromatids are ...
