Going for gold: The mono- and di-chloroform solvates of $[\text{Au}_2(\mu_4\text{C}_1, 2\text{-bis}(\text{diphenylarsino})\text{ethane})_2](\text{AsF}_6)_2$ undergo single-crystal-to-single-crystal transformations that result in gain or loss of only one chloroform molecule and changes in the structure and luminescence of the digold cation.

Synopsys is an American company. Synopsys' first and best-known product is Design Compiler, a logic-synthesis tool. Synopsys offers a wide range of other products used in the design of an application-specific integrated circuit. Products include logic synthesis, behavioral synthesis, place and route, static timing analysis, formal verification, hardware description language (SystemC ...

Synopsys - Wikipedia

How the genomic landscape of a tumor shapes and is shaped by anti-tumor immunity has not been systematically explored. Using large-scale genomic data sets of solid tissue tumor biopsies, we quantified the cytolytic activity of the local immune infiltrate and identified associated properties across 18 tumor types.

Molecular and Genetic Properties of Tumors Associated with

Cadence's custom, analog, and RF design solutions can help you save time by automating many routine tasks, from block-level and mixed-signal simulation to routing and library characterization.. Overview Related Products A-Z

Positron-emission tomography (PET) is a nuclear medicine functional imaging technique that is used to observe metabolic processes in the body as an aid to the diagnosis of disease. The system detects pairs of gamma rays emitted indirectly by a positron-emitting radionuclide, most commonly fluorine-18, which is introduced into the body on a biologically active molecule called a radioactive tracer.

Positron emission tomography - Wikipedia

Intracellular uptake, distribution and metabolism of lipids are tightly regulated characteristics in healthy cells. An analytical technique capable of understanding these characteristics with a high level of species specificity in a minimally invasive manner is highly desirable in order to understand better how these become disrupted during disease.

Tracking intracellular uptake and localisation of alkyne

The human genome sequence has profoundly altered our understanding of biology, human diversity, and disease. The path from the first draft sequence to our nascent era of personal genomes and genomic medicine has been made possible only because of the extraordinary advancements in DNA sequencing technologies over the past 10 years.

The first step in Hedgehog signaling. The Hedgehog (Hh) signaling pathway is important in embryogenesis; overactivation is associated with cancer.

Structural basis for the recognition of Sonic Hedgehog by

Lineage losses for man's best friend. Dogs have been present in North America for at least 9000 years. To better understand how present-day breeds and populations reflect their introduction to the New World, NÃ-Leathlobhair et al. sequenced the mitochondrial and nuclear genomes of ancient dogs (see the Perspective by Goodman and Karlsson).

The evolutionary history of dogs in the Americas | Science

Abstract. Glutathione (GSH) plays an important role in a multitude of cellular processes, including cell differentiation, proliferation, and apoptosis, and disturbances in GSH homeostasis are involved in the etiology and progression of many human diseases including cancer.

Role of Glutathione in Cancer Progression and Chemoresistance

ABSTRACT. Heparan sulfate proteoglycans are ubiquitously found at the cell surface and extracellular matrix in all the animal species. This review will focus on the structural characteristics of the heparan sulfate proteoglycans related to protein interactions leading to cell signaling.

Heparan sulfate proteoglycans: structure, protein

Section 2: The use of cell phones while driving. Boy, 5, ejected in rollover crash when mother distracted by cellphone, police say. A 5-year-old boy was ejected from a truck when his mother crashed on a California highway on Tuesday [9/18/2018] while she was on her cellphone, authorities told a local station.

Cell phones : Use, misuse, and electronic countermeasures

The Legal Status of Women, 1946 Booklet This is an address delivered by J.E. Brownlee, K.C., LL.D., Vice-President of the United Grain Growers Ltd. to the Convention of the United Farm Women of Alberta on Friday, January 11, 1946.
