Operation Research & Optimisation Techniques

FIRST SEMESTER A. THEORY

About Soham Chatterjee. Soham is a deep learning research intern at Saama, and an undergraduate student of Electrical and Electronics Engineering at SRM University.

Capsule Networks and the Limitations of CNNs - Saama

A web search engine is a software system that is designed to search for information on the World Wide Web. The search results are generally presented in a line of results, often referred to as search engine results pages (SERPs). The information may be a mix of web pages, images and other types of files. Some search engines also mine data available in databases or open directories.
