Investigating the neural correlates of psychopathy: a

Research has implicated an addictive process in the development and maintenance of obesity. Although parallels in neural functioning between obesity and substance dependence have been found, no studies have examined the neural correlates of addictive-like eating behavior.

The Neural Correlates of "Food Addiction"

On the basis of this work, we put forward an initial model of the neural correlates of race that could serve as a basis for future research aimed at understanding the interacting systems involved in race processing and its downstream cognitive, affective and behavioral consequences.
