technology infrastructure, the recognition and support of the National Science Foundation was seen as critical in identifying, coordinating, and representing impartially the various stakeholders involved.

### **Information Technology - NSF - National Science Foundation**

The words science and technology can and often are used interchangeably. But the goal of science is the pursuit of knowledge for its own sake while the goal of technology is to create products that solve problems and improve human life. Simply put, technology is the practical application of science.
