Identifying identical twins is crucial for all biometric systems. The systems that cannot handle identical twins have a serious security hole. According to our best knowledge, so far no paper summarizes the testing results of identical twins. In addition, no one investigates the similarity between low-resolution identical twins'™ palmprints.

A Study of Identical Twins'™ Palmprints for Personal

Still, the twins do have problems: low heart rates, apnea spells and the inability to coordinate sucking, swallowing and breathing. At first, their only source of nutrition is intravenous fluids. Then they progress to tube feedings while on medication for their low heart rates and apnea.

Thanks to loving parents, these premature twins have thrived!
